PROFESSIONAL SUMMARY

Frontend developer with 2+ years of experience shipping production-grade React and TypeScript applications with component design systems. Architected a 50+ component UI library across 5+ client projects, cutting development time by 40%. Built full-stack data pipelines with REST APIs, Supabase, and Neon DB using Node.js. Developed 7+ AI-augmented applications using multi-provider LLM orchestration, RAG pipelines, and vector embeddings. Skilled in responsive design, accessibility, and performance optimization.

TECHNICAL SKILLS

Frontend: React 18/19, TypeScript, JavaScript ES6+, Vite, Tailwind CSS v4, HTML5/CSS3, GSAP, Framer Motion, Three.js, Responsive Design

Testing & Quality: Jest, React Testing Library, Web Accessibility (WCAG), Cross-Browser Testing, Lighthouse, ESLint

Backend & DB: REST API Integration, Node.js, Supabase, Neon DB, PostgreSQL, Version Control (Git)

AI & Data: Multi-Provider LLM Orchestration, RAG Pipelines, Vector Embeddings, Prompt Engineering, Data Visualization

Tools & DevOps: Git, Vite, Webpack, ESLint, CI/CD, Vercel, Netlify, Render, Chrome DevTools, Agile Development

PROFESSIONAL EXPERIENCE

Capslock Studio Private Limited Pune, India

Frontend Developer June 2023 — October 2025

- Architected a 50+ component design system in React + Tailwind CSS from scratch, standardizing UI across 5+ client projects and reducing development time by ~40%.
 - Maintained end-to-end frontend for 5+ production websites, coordinating deployments, bug fixes, and feature additions across 2+ years with 99.9% uptime.
 - Integrated 15+ REST APIs with Supabase and Neon DB for real-time data sync and serverless PostgreSQL workflows across multiple applications.
 - Refactored legacy monolithic codebase into modular, scalable architecture, cutting technical debt by 60% and reducing onboarding time for new developers.
 - Collaborated with design and backend teams to ship accessible, pixel-perfect UI across browsers, achieving 90+ Lighthouse scores on all client properties.
 - Conducted code reviews, enforced ESLint standards, and followed Agile/Scrum methodology across 2-week sprint cycles.

PROJECTS

1. Capslock Design System [Design System Architect](#)

React, TypeScript, Tailwind CSS, Component Architecture

Architected 50+ reusable components in React with TypeScript and Tailwind CSS, eliminating duplicate UI code and standardizing responsive interfaces across all client products.

2. Capslock Data Studio [Full Stack Developer](#)

React, REST APIs, Supabase, Neon DB, State Management

Integrated 15+ REST APIs with real-time data fetching and serverless PostgreSQL via Supabase/Neon DB, handling auth, real-time subscriptions, and complex queries.

3. Capslock Studios — Maintenance [Production Engineer](#)

React, Production Support, Performance Optimization

Sole frontend engineer maintaining 5+ live client websites over 2+ years — owning deployments, critical bug fixes, feature rollouts, and performance optimization.

4. BookChat [Full Stack Developer](#)

React, RAG Pipeline, Vector Search, Groq LLM

Privacy-first PDF chat app with browser-based RAG using vector embeddings, cosine similarity search, and Groq LLM streaming. Multi-document Q&A with offline resilience.

<https://book-chat-seven.vercel.app/>

5. Niru Bhau — 3D Portfolio [Frontend Developer](#)

React, Three.js, Framer Motion, GSAP, Zustand

Interactive 3D portfolio with Three.js MeshTransmissionMaterial gear model, particle system with mouse physics, dark/light theme, and smooth page transitions.

<https://mech-wwim.onrender.com/>

6. Story Maker [Full Stack Developer](#)

React, Multi-Provider LLM, Leaflet, i18n, Streaming

AI story platform generating narratives from real-world locations via Leaflet map. Multi-provider LLM auto-fallback across 7 providers with streaming output in 75+ languages.

<https://story-studio-one.vercel.app/>

7. AI Analyst Suite [Full Stack Developer](#)

React 18, TypeScript, Multi-Provider AI, Recharts, TanStack

Business analysis platform running parallel AI across 6 analyst personas using 7 LLM providers. Streaming KPI dashboards, TanStack tables, and HTML/Word/PDF export.

<https://idea-analyst.vercel.app/>

8. LLM Evaluation Dashboard [Full Stack Developer](#)

React 19, Radix UI, Recharts, Multi-Model, Cost Analytics

Dashboard evaluating 7 LLMs across 14 metrics — latency, throughput, token usage, cost. Real-time streaming evaluations with comparison grids and dark/light theme.

<https://llm-evaluation-flax.vercel.app/>

9. Taste Atlas [Frontend Developer](#)

React, Leaflet, MealDB API, Geolocation, LocalStorage

Global cuisine discovery with interactive Leaflet map, MealDB API (78+ countries, 200+ recipes), favorites with localStorage, and geolocation-based discovery.

10. TradeIntel [Frontend Developer](#)

React, Vite, Tailwind CSS, Theme System, Responsive Design

Import/export intelligence platform with dark/light theme, responsive data-dashboard layout, and component-driven architecture for data exploration workflows.

<https://trade-intell.vercel.app/>

11. UniSearch [Frontend Developer](#)

React, Vite, API Integration, LocalStorage, CSV Export

University discovery platform ingesting 15,000+ institutions via Hipolabs API. Country-based search with table/card views, favorites, and CSV export.

<https://uni-search-tau.vercel.app/>

12. VibeNews [Full Stack Developer](#)

React, News API, Client-Side Routing, Theme System

Curated news aggregator with real-time multi-category news fetching, client-side routing, dark/light theme toggle, and responsive layout via Vite.
